### The Big Picture

We have lots of different parts of our body and some parts link to the five senses. Different parts of our body do different things and they are all important in their own way. The five human senses are touch, taste, smell, sight and hearing, these all help us in our everyday lives. We will investigate these topics, working scientifically with experiments, observations and predictions.

### Enquiry Question

How do I feel?  
 What are the parts of my body?  
 What do I use my body for?  
 What are my senses?  
 How do I smell?  
 What do I use to taste?

Humans	
Human beings	<ul style="list-style-type: none"> <li>We are called humans</li> <li>We are from the family of animals called mammals</li> </ul>
